

Streaming Media Internet Connection Requirements

To stream a live webcast from your location, please confirm the following:

- 900 Kbps sustained connection

- The following firewall ports need to be open:
 - TCP/80 outbound for video streaming
 - TCP/21 outbound to upload slide images and on-demand video files

(To view the stream, the following ports may need to be opened:
TCP/80, TCP/1755, UDP/1755, TCP/554, and UDP/554)

Here's a Microsoft knowledgebase article that addresses streaming media port requirements for Windows Media: <http://support.microsoft.com/kb/189416>
