

DATA QUALITY INSTITUTE

Building State Capacity for Reporting Perkins Data

Connection Instructions and Testing June 6-7, 2012 V-DQI

Viewing the Live Webcast

To view the webcast, click the appropriate link below and you should automatically be directed to the webcast.

June 6, 2012

The opening session will begin at 11:30am ET. Please connect to the event between 11:00 and 11:30 am ET through the following link:

<http://mediasite.yorkcast.com/webcast/Viewer/?peid=ed24a3e2ca31400db58d5c900407fd0f1d>

June 7, 2012

Session 4 will begin at 1pm ET. Please connect to the event between 12:45 and 1pm ET through the following link:

<http://mediasite.yorkcast.com/webcast/Viewer/?peid=d6e18ea7286449259f4f873bf2b239991d>

The closing general session will begin at 3:30 pm ET. Please reconnect to the closing general session following the concurrent webinars between 3:15 and 3:30 pm ET through the following link (this is the same link as the June 7 morning link):

<http://mediasite.yorkcast.com/webcast/Viewer/?peid=d6e18ea7286449259f4f873bf2b239991d>

Pre-event Testing

Prior to the webcast, we strongly recommend that you confirm that your computer and Internet firewall support viewing this type of Webcast. You may test your system by viewing an archived webcast at the link below. Confirm that you can hear audio, see video, and view the slide presentation displayed adjacent to the video player.

Click the link below to test:

<http://mediasite.yorkcast.com/webcast/Viewer/?peid=ef1135ec9e8846ddbcfaf3471eb713ec>

Windows Requirements: For best results, it is recommended that Windows users have Microsoft Windows 2003, XP, Vista or 2008, and use Internet Explorer version 7.0 or later, Firefox 2.0 or later, or Google Chrome 1.0 or later. Your Windows computer comes with Windows Media Player pre-installed, and you should confirm that your version is 9.0 or later. If you're using Microsoft's Silverlight Players, version 3.0 or later is preferred. You may download the most current versions of Internet Explorer, Windows Media Player and Silverlight Player for free at www.microsoft.com

Internet Requirements: Webcasts will look and sound best when viewed over a broadband Internet connection of 300kbps or greater sustained bandwidth. You can confirm your available bandwidth by running the bandwidth test available at www.speedtest.net.

Firewall Requirements: Some corporate network administrators block streaming media at the network firewall. If you are unable to view streaming video, you may need to notify your network/IT administrator that you wish to participate in a webcast. Please advise them that the following firewall ports need to be opened in support of proper webcast viewing: TCP/80, TCP/1755, UDP/1755, TCP/554, and UDP/554.

Getting Help: To avoid problems viewing the webcast, we strongly recommend testing prior to the webcast using the test link and information provided above. Should you encounter problems during testing that you suspect are not caused by software or network configuration issues at your location, you may contact webcast technical support via e-mail to events@yorktel.com.

Connecting to the State Network Discussion Conference Calls

After locating your state in the grouping of state below, then use the dial-in number and access code that has been assigned to your state group number. The State Network Discussion Groups will be facilitated conference calls and will function like a traditional conference call.

If for some reason during the conference call, the AT&T audio bridge is lost and the call becomes disconnected, please send an e-mail to MPR technical support at vdingler@mprinc.com or jgapasin@mprinc.com.

Each state group will use the same dial-in number of **1-888-270-9936** with separate access codes

State Group	Content Facilitator	Group Access Code
1. CA, TX, NY, FL, IL, PA, OH, MI, GA	Sharon Enright-OH	3436644
2. NC, NJ, VA, WA, MA, IN, AZ, TN, MO	Phouang Hamilton-WA	5707853
3. MD, WI, MN, CO, AL, SC, LA, KY, OR	Dan Smith-MN	1813145
4. OK, CT, IA, MS, AR, KS, UT, NV, NM	Jay Savage-OVAE	7939474
5. WV, NE, ID, HI, ME, NH, RI, MT, DE	Melvin D'Souza-DE	2078109
6. SD, AK, ND, VT, WY, DC, VI, GU, PR	Jose Figueroa-OVAE	6312372

Viewing the Session 5 Webinar Sessions

June 7, 2012

The Session 5 concurrent webinars will begin at 2:15 pm ET. There are three webinar choices to select from. Each webinar will cover similar content; the difference will be in the state approach to the topic and strategies used. Please connect to the event between 2:00 and 2:15 pm ET through the following instructions, links, and access codes:

To Access the Web portion of the Webinar:

1. Click on the appropriate link for your webinar choice in the table below
2. Enter your first and last name and e-mail address when prompted on the “Join Event or Meeting Room” screen and click “join now”
3. Select the **Web Participant Application**, which is the second of two options for joining the webinar. This option does not require you to download any additional software.
4. Once you’ve signed on, you’ll be asked to choose your telephone preference; please select the first option: “call me.” Enter your phone number and click “OK.”

Webinar	Presenters	Link
Webinar A: Maryland	Pat Mikos	https://connect9.uc.att.com/service32/meet/?ExEventID=87939474
Webinar B: Pennsylvania	Kevin Springman, Steve Simchock	https://connect9.uc.att.com/service32/meet/?ExEventID=82078109
Webinar C: Washington	Phouang Hamilton, Bill Huennekens	https://connect9.uc.att.com/service32/meet/?ExEventID=85883722

Each of the webinars will be hosted by MPR technical staff to monitor the technical aspects of the webinar. Each webinar will have a content facilitator to guide the Q&A portion of the presentations.

Thank you for your participation in the 2012 Virtual Data Quality Institute.
